website: www.enerconsystemsco.com

Product Warranty

Enercon Systems Company unconditionally guarantees for twenty years its condensate removal unit against defects in *material and workmanship, venturi wear, and wire draw* while it is the property of the original owner. It does not cover the labor, material or other costs related to cleaning or installing them. If such defects or damages occur, Enercon will replace said unit(s) free of charge. This warranty covers the *Condensate Removal Unit only*; not the Y-strainer, blowdown valve or other parts of the Enercon assembly. This warranty applies to normal use and not to intentional damage, improper piping or unreasonable use. In honoring this warranty, Enercon's responsibility covers *replacing* defective condensate removal units only, not the labor, material or other costs related to installing them.
